

fading faster

AVRALIZE

Lost in the static
I'm caught up in a dream
So automatic
Gravitating

Face the facts
I'm drawn to all your motion
Cause the pain relents
You soothe my sins

When it all goes dark
Don't know how to feel
I'm fading faster
Cause I need you by my side

When it all goes dark
Don't know how to feel
I'm fading faster
Cause I need you by my side

It's freaking me out cause
My heads ringing louder
I can't figure out why
Your aura makes me
Feel good

Oh it's affecting me
Our heartbeats on the same frequency
Baby can't you see
You get the best of me

Gravitating

When it all goes dark
Don't know how to feel
I'm fading faster
Cause I need you by my side

When it all goes dark
Don't know how to feel
I'm fading faster
Cause I need you by my side

You pull me closer
I feel you coming in
You bring me closure
When my world is shaking

When it all goes dark
Don't know how to feel
I'm fading faster
Cause I need you by my side

Hit it

Can't figure it out
Lost myself so many times

In your eyes

When it all goes dark
Don't know how to feel
I'm fading faster
Cause I need you by my side

When it all goes dark
Don't know how to feel
I'm fading faster
Cause I need you by my side

You pull me closer
I feel you coming in
You bring me closure
When my world is shaking

You pull me closer
I feel you coming in
You bring me closure
And I need you by my side

Cause I need you by my side
