HIGHER

AVRALIZE

Chasing my fate into the unknown
All I know is all that I want is going to slow

My self doubts
Feel so drawn out
Knock myself out
Cause who would believe in me
I would die today

Call me crazy
But I'd give everything away
Always pushing to the edge been
Treading water in my mind
Keep running my whole goddamn life
Go crazy
Yeah I'd give everything

I 'd give everything

Running
From a better version of myself
Another turning point
Another choice
What my heart desires is to feed the fire
Watch it burning higher

Burn burn burn

Chasing my fate into the unknown
All I know is all that I want is going to slow
My self doubts
Feel so drawn out
Knock myself out
Yeah I'm going

Crazy
But I'd give everything away
Always pushing to the edge been
Treading water in my mind
Keep running my whole goddamn life
Go crazy
Yeah I'd give everything

What my heart desires is to feed the fire
Watch it burn

Always pushing it straight to the edge

Another choice

Another turning point
Another choice
What my heart desires is to feed the fire
Watch it burning higher

Call me crazy
But I'd give everything away

```
Always pushing to the edge been
Treading water in my mind
Keep running my whole goddamn life
Go crazy
Yeah I'd give everything

Keep on running
```

```
Always pushing to the edge been
Treading water in my mind
Keep running my whole goddamn life
Go crazy
Yeah I'd give everything
```
