

# LOTUS

AVRALIZE

Becoming the lotus  
Becoming the lotus

On my way to the sun  
Driving my metamorphosis  
Seeking safety but I cannot control this fear  
Is what I was fed with  
My mind on the edge always ready to

Letting go  
Of everything I used to know  
Cause I will give it all for you

Letting go  
Of everything I used to know  
Cause I will give it all for you

Becoming the Lotus  
Controlled by others disbeliefs  
I tried to sprout but the roots won't go deep  
Leaving everything behind  
That's putting weight onto my mind

Words like bullets keep on chasing me  
Putting down holy ground  
Only to make them see  
That I'm worthy all by myself  
Nothing can hurt me

Letting go  
Of everything I used to know  
Cause I will give it all for you  
Dodging bullets to stay alive  
Growing pedals for my disguise  
Dodging bullets to stay alive  
Growing to the sun to find my paradise

Close your eyes  
Trapped inside  
The eye of the hurricane  
Drawn from my mind  
Under my shadows we hide  
Gripping the vines  
Trusting me blind  
Giving up on the fight  
Leave it behind  
I'm Letting go

Of everything I used to know  
Cause I will give it all for you  
Dodging bullets to stay alive  
Growing pedals for my disguise  
Dodging bullets to stay alive  
Growing to the sun to find my paradise

Letting go  
Of everything I used to know

Cause I will give it all for you  
Dodging bullets to stay alive  
Growing pedals for my disguise  
Dodging bullets to stay alive  
Growing to the sun to find my paradise
