

OVERDOSE

AVRALIZE

Craving the peak
While we all fall apart
Too bright to see
Oh we knew it from the start

Can't find yourself
Or anyone else
We drown in the noise and
Keep breathing our poison

We shoot for the stars

Still play pretend
In this endless labyrinth
How will this end
Where are you safe from your sins

Can't find yourself
Or anyone else
We drown in the noise and
Keep breathing our poison

Watch us overdose
Watch us lose control
Yeah we burn it all
We shoot for the stars
As we fall apart

Watch us overdose
Watch us lose control
Yeah we burn it all
We shoot for the stars
As we fall apart

Overdose

You know that I'd be lying
If I tell you I'm not sick
These habits I've gained dig my abyss

I'm trying
To breath in but my lungs aching bad
Force myself to resist

We shoot for the stars

Watch us overdose
Watch us lose control
Yeah we burn it all
We shoot for the stars
As we fall apart

Overdose

Come on let me
Come on let me go
Come on let me

Come on let me go
Come on let me
Come on let me
Shoot
Shoot for the stars
Getting way to close to the edge
I breath in but my lungs
Force myself to resist
Force myself to resist

Watch us overdose
Watch us lose control
Yeah we burn it all
We shoot for the stars
As we fall apart

Watch us overdose
Watch us lose control
Yeah we burn it all
We shoot for the stars
As we fall apart

Overdose
Yeah we burn it all
We shoot for the stars
As we fall apart
Overdose

We shoot for the stars
