

# Bite Me

Avril Lavigne

Hey you, you should've known better, better to fuck with someone like me  
Hey you, forever and ever you're gonna wish I was your wifey

Don't act so innocent  
This was no accident  
You planned this in the end  
And now it's over

Say what you want to say  
You lied and I got played  
You threw it all away  
And now it's over

Just face it  
We didn't make it  
You bit off more than you can chew  
Can you taste it?

Hey you, you should've known better, better to fuck with someone like me  
Hey you, forever and ever you're gonna wish I was your wifey  
Should've held on, should've treated me right  
I gave you one chance, you don't get it twice  
Hey you, and we'll be together never, so baby you can bite me

Don't hold your breath  
'Cause you're still choking on your words  
Those things you said  
Might be the last ones that I heard

So come pick up your clothes from the front yard  
Sprinklers on, burn the rest in the backyard  
Should've had the guts just to say goodbye  
Now you're gonna have regrets for the rest of your life

Just face it  
We didn't make it  
You bit off more than you can chew  
Can you taste it?

Hey you, you should've known better, better to fuck with someone like me  
Hey you, forever and ever you're gonna wish I was your wifey  
Should've held on, should've treated me right  
I gave you one chance, you don't get it twice  
Hey you, and we'll be together never, so baby you can bite me

I bet you taste me on the tip of your tongue  
Tip of your tongue, tip of your tongue  
I fell fast when I know I shoulda run  
Know I shoulda run, know I shoulda run

I bet you taste me on the tip of your tongue  
Tip of your tongue, tip of your tongue  
I fell fast when I know I shoulda run  
Know I shoulda run, know I shoulda run

Hey you, you should've known better, better to fuck with someone like me (Like me)

Hey you, forever and ever you're gonna wish I was your wifey  
Should've held on, should've treated me right (Yeah yeah yeah)  
I gave you one chance, you don't get it twice (Yeah yeah yeah)  
Hey you, and we'll be together never, so baby you can bite me
