

## Red Viscera Serology

Avulsed

Extraction Of  
The inner shards  
The Oozing entrails  
Of the sacrificial

Opened up  
And quickly gutted  
To lay on display  
What dwells inside

Surrounded by the grasping claws of entities awaken now  
Drawn here by the stench, the stench of the fumes of rot  
The cutting procedure commences, red viscera excavated  
The emptying of the skin... of bones, blood and bowels

Red Viscera Serology  
Red Viscera Serology

A pus filled odor seeps from out the crematory grounds  
Inside the rotting night, ghoulish deeds are done  
Red viscera serology, the remains of the rotting  
Tubes and hoses drain the flesh of red pissing entrails

Extraction Of  
The inner shards  
The Oozing entrails  
Of the sacrificial

Opened up  
And quickly gutted  
To lay on display  
What dwells inside
