

## Like I Do

AWA

I've been chilling for a minute  
And I see people switching up  
And tryna dim my light  
They start to question why I'm running 'round  
Runnin' up and down, doing fine  
Can't nobody tell me how to do it  
Oh, I'm gonna love me loud  
Became a habit, now I harmonise  
With the thoughts from my paradigm

See, all you gotta do  
Is ask and then believe the loving in you  
The love is in you  
See, all you gotta do  
Is kill the enemy that lies within you  
That's the only thing to do

He said he love me  
I said, "Thank you, boy, I love me too"  
They know I do  
You know I do  
He said he love me  
I said, "Thank you, baby boy, I know you love, I love me too"  
You know I do  
You better love me like I do

Nobody can love me like I love me, love me, love me like I do  
He said, "I love you," I said, "Thank you, baby, I love me too"  
Nobody can love me like I love me, love me, love me like I do  
He said, "I love you," I said, "Thank you, baby, I love me too"

I say it and I mean it and I know that you believe it, better wait in line  
Yet to discover that I'm only mine  
Gotta focus, gotta stay aligned  
I give in little pieces, never taking, always leave them w a thought in mind  
They start to crave you in the late night  
They always call me past my bedtime

See, all you gotta do  
Is ask and then believe the loving in you  
The love is in you  
See, all you gotta do  
Is kill the enemy that lies within you  
That's the only thing to do

He said he love me  
I said, "Thank you, boy, I love me too"  
They know I do  
You know I do  
He said he love me  
I said, "Thank you, baby boy, I know you love, I love me too"  
You know I do  
You better love me like I do

Nobody can love me like I love me, love me, love me like I do  
He said, "I love you," I said, "Thank you, baby, I love me too"  
Nobody can love me like I love me, love me, love me like I do

He said, "I love you," I said, "Thank you, baby, I love me too"

I told the stars all about me  
Shining so bright, I see clearly  
Don't know what's taken me so long (So long)  
I learned and I let it go  
Trust me, I pay no attention  
I do not care what they saying  
Don't need to make conversation  
'Cause I learned and I let it go

He said he love me  
I said, "Thank you, boy, I love me too"  
They know I do  
You know I do  
He said he love me  
I said, "Thank you, baby boy, I know you love, I love me too"  
You know I do  
You better love me like I do

Nobody can love me like I love me, love me, love me like I do  
He said, "I love you," I said, "Thank you, baby, I love me too"  
Nobody can love me like I love me, love me, love me like I do  
He said, "I love you," I said, "Thank you, baby, I love me too"
