

On And On

AWA

Lately I've been thinking 'bout the long run
Claiming dreams and letting go of sorrow
Making time for the phase of the golden in between
Even though it be hard gotta trust in the unseen
Lately I've been thinking

That his love for me is endless
It's the root of why I'm strong
Cuz I finally stopped pretending
Like I'm out here all alone
When I learned to trust my senses
That shit moved me to the core
Cuz his love for me is endless
It goes on and on and on, on and on and on

On, on, on
It goes on and on and on
On, on, on
It goes on and on and on

Like I'm the center love it moves in orbit
Callin' it to me I attract my fortune
I, I, I, I'm
Never behind, right on my timing
We got it
From the sunrise all to the sundown
A promise
Lately I've been thinking

That his love for me is endless
It's the root of why I'm strong
Cuz I finally stopped pretending
Like I'm out here all alone
When I learned to trust my senses
That shit moved me to the core
Cuz his love for me is endless
It goes on and on and on, on and on and on

On, on, on
It goes on and on and on
On, on, on
It goes on and on and on

That his love for me is endless
It's the root of why I'm strong
Cuz I finally stopped pretending
Like I'm out here all alone
