

Burns

Awake The Dreamer

But you did it before me
But you did it before me
But you did it before me
But you did it, you did it
Before me

I guess I like when it burns
But you did it before me
Bad habits turning me inside out

I guess I like when it hurts
But you did it before me
Wondering if I'll ever be the same
When will I ever learn?

You make me fall back down from
You make me fall back down from
You make me fall back down

I guess I like when it burns
But you did it before me
Bad habits turning me inside out
But you did it before me

But you did it before me
But you did it before me
But you did it before me
I guess I never learn

Bittersweet, it's killing me
Should have never ate from the poison tree
I'm lost and yet I think I'm free
This forbidden truth still haunts in me

Bittersweet, it's killing me
Should have never ate from the poison tree
I'm lost and yet I think I'm free
This forbidden truth still haunts in me

You make me fall back down from
You make me fall back down from

Bittersweet, it's killing me
Should have never ate from the poison tree
I'm lost and yet I think I'm free
This forbidden truth still haunts in me

I guess I like when it burns
But you did it before me
Bad habits turning me inside out
But you did it before me

But you did it before me
But you did it before me
But you did it before me
I guess I never learn

Bittersweet, it's killing me
Should have never ate from the poison tree
I'm lost and yet I think I'm free
This forbidden truth still haunts in me

Bad habits turning me inside out
Wondering if I'll ever be the same
When will I ever learn?

Bittersweet, it's killing me
Should have never ate from the poison tree
I'm lost and yet I think I'm free
This forbidden truth still haunts in me
