

## Future

## Awake The Dreamer

I'm coming home  
But not to where I belong  
Where I belong

These roads are talking to me  
Saying I'm wrong  
Saying I'm wrong

Silent whispers in the wind lead me on  
They lead me on

And though the journey's tough  
I must carry on  
Must carry on

And now I'm searching for directions  
Gotta find my way before it's too late  
And now the shadows whisper lies in my ear  
Gotta find my way before it's too late

And now the shadows whisper lies in my ear  
Gotta find my way before it's too late

The future is not dark, it's black  
Together we stand hand in hand

And now I'm searching for directions  
Gotta find my way before it's too late  
And now the shadows whisper lies in my ear  
Gotta find my way before it's too late

The city lights are blinding  
Shadows grow long  
Shadows grow long

I'm hoping that the night won't steer me wrong  
Steer me wrong

And now I'm searching for directions  
Gotta find my way before it's too late  
And now the shadows whisper lies in my ear  
Gotta find my way before it's too late

And now the shadows whisper lies in my ear  
Gotta find my way before it's too late

And now I'm searching for directions  
Gotta find my way before it's too late  
And now the shadows whisper lies in my ear  
The future is not dark, it's black

The future is not dark, it's black  
Together we stand hand in hand

And now I'm searching for directions  
Gotta find my way before it's too late  
And now the shadows whisper lies in my ear

Gotta find my way before it's too late
