

Secrets

Awake The Dreamer

How many lies
Will you tell me?
How many secrets
How many truths

How many lies
Will you tell me?
How many secrets
Before they come true

You told them in your sleep
Don't try to hide it
You told them in your sleep
Don't try to hide it from me
You told them in your sleep
Don't try to hide it
You told them in your sleep
You told them in your sleep

A dictionary of tears
I've written out all your fears
You shouldn't go in the water
Before you know how to swim

Before you know how to swim

When you've replaced every part of me
How will I know
If I'm still me

You told them in your sleep
Don't try to hide it
You told them in your sleep
Don't try to hide it from me
You told them in your sleep
Don't try to hide it
You told them in your sleep
You told them in your sleep

A dictionary of tears
I've written out all your fears
You shouldn't go in the water
Before you know how to swim

Before you know how to swim

Together alone in this heaven below
Finding a way in this pitch black glow
Forgotten the lessons that we once had learned
Drowning in the flames of the ocean burned

Together alone in this heaven below
Finding a way in this pitch black glow
Forgotten the lessons that we once had learned
Drowning in the flames of the ocean burned
