

("Uhm, I love you" "I love you too... okay-")

Give

But don't give too much  
If you just give enough  
You won't be crushed

Love

Love so fucking hard  
The world is not big enough  
For you and your heart

What just fucking happened?

What just occurred?

Don't rush the process!

It might sound absurd

But, like a flower we all bloom (bloom, bloom)

Don't spend all day in your room (room, room)

Not going far if you don't move (move, move)

Control it now or it consumes

What just fucking happened?

Touch

You forgot how to touch  
You let your brain think too much  
Now you can't breathe

Heal

Please know that nothing is real  
And time is not a factor  
Go for what your after  
Don't let the fear steal

What just fucking happened? (what just fucking happened?)

What just occurred? (what just occurred?)

Don't rush the process! (don't rush the process)
