

breathe..

awfultune

Wish you were sober
Had your hands below my waist
And you were holding me closer
And I'm like when is this over?
I don't want to hurt you
I can't keep my composure

Slowly watching as the sun falls out
Of me taking all the colors down

This isn't warm anymore
I'm starting feel my fingers freeze
I don't feel you like before
Even the air feels out of reach

I'm so gone (so gone)
It's so done (so done)
I'm so gone (I don't even feel relief)
It's so done
All I'm trying to do is breathe
All I'm trying to do is breathe

This isn't warm anymore
I'm starting feel my fingers freeze
I don't feel you like before
Even the air feels out of reach

This isn't warm anymore
I'm starting feel my fingers freeze
I don't feel you like before
Even the air feels out of reach

I'm so gone (so gone)
It's so done (so done)
I'm so gone (so gone)
It's so done (so done)
All I'm trying to do is breathe

All I'm trying to do is breathe
All I'm trying to do is breathe
All I'm trying to do is breathe
All I'm trying to do is breathe
