

Buds

awfultune

I just wanna know what you want
Cause you're confusing a bitch right now
Guess you don't know how lucky you are
All the men that I've turned down

I've just had it up to here
Now I finally see
Nothing about it was sincere
You just wanted to fuck me
Talking in your ear
You don't acknowledge me
I just wanna disappear
Go where you can't find me

You had me believing
That this was love
Up all night dreaming
But we're just buds
You had me believing
That this was love
Up all night dreaming
But we're just buds
You call me your

What you do
Makes me lose my mind
But who you are
Is not what I'm about
You have walls and they
Are higher than mine
I know you're never gonna
Tear them down

I wasn't asking for much
Did you even try?
Fuck a stupid little crush
All I did was cry
Had me out here as a clutch
And I don't know why
You said you wanna stay in touch
I wanna die

You had me believing
That this was love
Up all night dreaming
But we're just buds
You had me believing
That this was love
Up all night dreaming
But we're just buds
You call me your

Bud (you called me your)
Bud (you called me your)
Bud (you called me your)
Bud (you called me your)
Hey!

You had me believing
That this was love
Up all night dreaming
But we're just buds
You had me believing
That this was love
Up all night dreaming
But we're just buds
You call me your (hey!)
