

Grace

awfultune

Honey I know I left you by surprise
I can see it in your eyes when you cry
Honey I know I was your favorite guy
But right now I'm so high I don't know the girl in front of me
I can't feel it anymore, you can't feel me anymore
And you'd paint me with my tears but you're done with me
I didn't try honey I can't even lie
You're angel in the sky yet you're haunting me

Her name was Grace
And she always dressed in lace
She's the girl the boys would chase
Her name was Grace
And her lips I still taste
God, she sends me right to space
Her name was Grace
I miss her fingers when she traced
Down my skin, my heart would race
Her name was Grace
And she has that kind of face
That makes you speechless

Honey it's time that I tell you why
Why I hooked up with that guy, why I lied
Honey it was all too much I had to say goodbye
But right now I could die
Cause I didn't see the girl in front of me
Can you feel me anymore? I can't feel me anymore
When it's 3 in the morning and no ones with me
I didn't try honey I can't even lie
And you have every single right to make fun of me

Your name is Grace
And you wear that type of lace
That gets me red all in my face
I know a place
Where we can go at our own pace
And the bad we can erase
Grace
Do your fingers still know the way?
Do your lips still know first base?
I can't replace your beautiful face
You make me speechless

Take me back
