

!!!!jealous

awfultune

I've spent hours
Wrapped up in your body heat
I know this feeling will pass
But right now it's killing me

I feel overpowered
Like I can't breathe
Thinking that there's somebody
Out there that can make you feel sweet

I guess I'm just jealous
Jealous it's not me
Sad I wasted my time
Happy you're happy
Fuck I can feel it in my throat
It's making it hard to speak
I guess I'm just jealous
And I carry it all inside me

Pull me apart real slow
Tell me you love me
I feel you letting go
Just do something
I think that everyone knows
From the looks they give me
How can I be stable
When it feels like I'm shaking?

I'm probably just jealous
Jealous it's not me
Sad I wasted my time
Happy you're happy
Fuck I can feel it in my throat
It's making it harder to speak
I'm probably just jealous
And I carry it all inside me
