

Liar

awfultune

You're such a liar and I hate you
You're not my friend anymore
And give me back the things I gave you
It's not the same anymore

God she's so fine
She's been running through my mind
I've been calling up her phone
With the number that she left behind
Now I'm not lonely
Now that I met somebody
Just please don't tell nobody

You're such a liar and I hate you
You're not my friend anymore
And give me back the things I gave you
It's not the same anymore

You're such a liar
