

## pluto and the moon

awfultune

Should of left you alone  
On that hot summer day  
Should of kept lookin at my phone  
Should of walked away  
I would of never known  
What I know today  
You will never even know  
And that's okay  
I kinda like it that way

Should of never held your hand  
On that cold rainy night  
Should of kissed another man  
One that'd treat me right  
Back then I hoped you'd understand  
And maybe someday you might  
All that I wanted was a friend  
I wasn't looking for a fight

You don't listen to my songs  
You'll never hear what I have to say  
I could play them all night long  
And we will always stay the same  
And that's okay  
I kinda like it that way  
I kinda like it that way
