Awkwafina

Young Fina  
Slanty eyed dreamer  
Fuck a 9 to 5  
I was born to be a leader  
Driving on Kissena  
Cool and calm demeanor  
Faith healer waiting on a weed dealer, free-wheelin'  
And I know I probably started late  
You know I didn't hit the game 'til 2008  
But I've been writing these rhymes on the 7 train  
Puttin in times, blowing minds, don't hesitate

Outside city vibes  
Queens is a trek, so  
None of my city friends have visited yet  
But it's alright, I don't mind, give it time  
Imma make the city so proud  
Let me testify this  
Let me testify this  
Ain't gotta justify shit  
I'm that chick  
Yo  
I'ma make this city so proud  
Let me testify

Not a happy camper when I'm stepping off a weight scale  
Cons of being famous is a constant flow of hate mail  
Think I'll call an Uber, breaking bank at the bake sale  
Fake it 'til you make it, they don't need to know the details

Outside city vibes  
Queens is a trek  
So none of my city friends have visited yet  
But it's alright, I don't mind, give it time  
Imma make the city so proud  
Let me testify this  
Let me testify this  
Ain't gotta justify shit  
I'm that chick  
Yo  
Imma make this city so proud  
Let me testify this  
Let me testify this  
Ain't gotta justify shit  
I'm that chick  
Yo  
Imma make this city so proud  
Let me testify  
Testify  
Testify this  
Let me testify this  
Imma make this city so proud  
Let me testify  
Testify  
Testify this  
I'ma make this city so proud  
Let me testify
