

## California Halo Blue

AWOLNATION

Don't wanna talk about it  
So I think I'll sing it with you  
I thought I had until the morning  
And I'd know what to do  
And she said

"I packed the car and grabbed the dogs  
And packed up plenty of food  
Don't worry  
And grabbed your journals, packed your soul  
And grabbed your favorite shoes"

California halo blue  
California, hang on through  
California halo blue  
California, hang on through

I couldn't walk, I couldn't talk  
You know I couldn't sit down  
All I could do was wait around and pray for my hometown  
Remember  
Ninth of November, don't forget about the trees and the birds

And their families  
Humanity, now I can see the Devil's hold on this world

California halo blue  
California, hang on through  
California halo blue  
California, hang on through

Remember, remember the ninth of November  
Remember, remember the ninth of November  
Remember, remember the ninth of November, ah

California halo blue  
California, hang on through  
California halo blue  
California, hang on through

Oh, halo blue  
Yeah, hang on through  
Oh, halo blue  
Yeah, hang on through
