You and me and everybody under the sun
We lightning riders, we lightning riders, we're one
You and me and all the maniacs in our lungs
We lightning riders, we lightning riders, we're one

I'm just blowing up, blowing up
These bridges behind me
Yeah I'm just blowing up, blowing up
These bridges behind me
I'm just blowing up, blowing up
These bridges behind me
Yeah I'm just blowing up, blowing up
And now I glow in the dark
And now I glow in the dark

You and me and all your inspiration my love
We lightning riders, we lightning riders, we're one
You and me and all the nah nah nah's in our lungs
We lightning riders, we lightning riders, we're one

Swimming in circles for a couple years

Swimming in circles for a couple years

And now I glow in the dark

These bridges behind me

And now I glow in the dark
