

Where Were You

AWS

Where were you, when I was left alone sitting in the dark?
Where were you, when the battle inside me kept tearing me apart
?
Where were you, when my desperate scream broke the silence of the night?
Where were you, when nobody believed that death is about to strike?

Wherever you roam, you won't be alone
'Cause God may set you free - but not me
Wherever you roam, you won't be alone
Pray Him to set you free - but don't ask me

Where were you, when I couldn't care less who's there to drag me down?
Where were you I ask, when I felt cold and empty, completely dead inside?
Where were you then, when I kept begging, but you disappeared from my side?
Where were you, when the minutes felt like decades passing by?
Where were you when, when I needed your love, but you took it, tell me why?

Wherever you roam, you won't be alone
'Cause God may set you free - but not me
Wherever you roam, you won't be alone
Pray Him to set you free - but don't ask me

Today you got all the answers
You kept me waiting but now we're face to face
Today you got them - all the answers
You're just another piece of filthy waste

Wherever you roam, you won't be alone
'Cause God may set you free - but not me
Wherever you roam, you won't be alone
Pray Him to set you free - but don't ask me

Wherever you roam, you won't be alone
'Cause God may set you free - but not me
Wherever you roam, you won't be alone
Pray Him to set you free - but don't ask me
