

# Fire and Water

Axe

My troubled heart is aching  
It's touched by a distant voice  
Truth has real power but so do lies  
It's time to make the choice

There's a time for living  
And there's a time to die  
And though I never needed answers  
Now I'm asking why

I feel the anger growing  
I'm so confused by all that I see  
Brothers killing brothers  
For religious bigotry

I see the children's faces  
Scarred with rage and fear  
And the truth in their hearts  
And the hope in their eyes  
Is drowning in their tears

It's written in blood  
It's written in stone  
Earth is home  
Earth is home where life must grow  
From the seeds of love we'll sow

Fire and water  
Sunshine and rain  
Fire and water  
So life can start again  
(We need fire)  
Fire and water  
Fire and water

And if our world is to survive (gotta survive)  
We must turn back this rising tide (turn the tide)  
Their evil gods have to die (they have to die)  
Tear down their temples, stop their crimes

We'll build a world that's strong and free  
Where lust and greed don't breed poverty  
And children grow without the fear of war  
And when truth is good, it brings so much more  
It brings...

Fire and water  
Sunshine and rain  
Fire and water  
So life can start again  
(We need fire)  
Fire and water  
Fire and water

Fire and water  
Sunshine and rain  
Fire and water

So life can start again  
(We need fire)

Fire and water  
Sunshine and rain  
Fire and water  
So life can start again  
(We need fire)

Fire and water  
Sunshine and rain  
Fire and water  
So life can start again  
(We need fire)  
Fire and water  
Sunshine and rain
