

## Forever

Axe

I will love you forever  
Though mountains may rise,  
Crumble and fall  
I'll be sure  
I'll know through it all  
I love you

I will want you forever  
And don't let the lies you hear  
Break your heart  
No one could know  
What I've know from the start  
I love you  
And if you should ever go  
There is something you should know  
That I will love you forever  
That I will love you forever  
That I will love you forever
