

## Make a Dream (Last Forever)

Axe

(Come on)

In a dream, broken hearts mended right before my eyes  
Healing all the pieces of all the shattered lives  
As I wake, I find myself in a cold reality  
I don't wanna stand here cryin'  
'Cause this ain't the way it's supposed to be

(How long) 'til we make this world better?  
(Be strong) Make the dream last forever

In a dream like this one, I turned to say goodbye  
To all the empty reason of a man who lived a lie  
As I wake, I see the world that others ought to see  
(I don't wanna stand here cryin')  
I don't wanna stand here cryin'  
'Cause this ain't the way it's supposed to be

(How long) 'til we make this world better?  
(Hold on) Make a dream last forever

(How long) 'til we make this world better?  
(Come on) Make the dream last forever  
(How long) 'til we make this world better?  
(Be strong) Make the dream last forever

In a dream like this one where cannons never sound  
And children don't know hunger and  
Every step's on hallowed ground  
As I wake, I find the world a raging, stormy sea  
I lift my voice, cry out loud  
This ain't the way It's supposed to be

(How long) 'til we make this world better?  
(Hold on) Make a dream last forever

(How long) 'til we make this world better?  
(Be strong) Make a dream last forever  
(How long) 'til we make this world better?  
(Come on) Make the dream last forever
