

## She Had the Power

Axe

I knew what I was doin'  
And I knew it wasn't right  
But there she was astandin'  
In the middle of the night  
And I've seen a lot of faces  
But never one like this  
I'da sold my soul for nothing  
For the memory of her kiss  
She had the power so take me to paradise  
No one can ever take that away  
She had the power, oh Lord, I paid the price  
'Cause she wouldn't let me stand in her way  
She knew what I was thinkin'  
She knew that I was wrong  
I thought she'd stay forever  
But I turned and she was gone  
Then she read me like a gypsy  
Lookin' in her crystal ball  
Then she left me like a prisoner  
Standin' up against the wall  
She had the power so take me to paradise  
And no one could ever take that away  
She had the power, oh Lord, I paid the price  
She wouldn't let me stand in her way  
She had the power so take me to paradise  
No one can ever take that away  
She had the power, oh Lord, I paid the price  
She wouldn't let me stand in her way
