

# Silent Soldiers

Axe

I could be wrong but I could be right  
One thing's for sure we'll end up in a fight tonight  
Just try to listen and don't say a thing  
No one can tell what midnight will bring alright

Silent soldiers  
Fighting battles here on the street  
Growing stronger  
Every night that they meet

Unlock the power and see what you find  
Unleash the anger that grows in your mind alright  
Reach for the answer it's gone in a glance

You won't survive if you don't take a chance tonight

Silent soldiers  
Fighting battles here on the street  
Growing stronger  
Every night that they meet

Silent soldiers  
Fighting battles here on the street  
Growing stronger  
Every night that they meet  
Silent soldiers  
Fighting battles here on the street  
Growing stronger  
Every night that they meet
