

# Sting of the Rain

Axe

Take another glance in the mirror  
To look over where I've been  
I wanna try to remember  
To forget this would be a sin  
And I've got enough strikes against me  
I don't need to add to the load  
Keep my hand on the throttle  
Keep my eyes on the road

It's like being the star of a movie  
And I didn't want to play this part  
And no amount of compromisin'  
Is gonna take away this pain in my heart  
I'm gettin' kinda used to the darkness  
And I reach to embrace the pain  
The only thing that keeps me awake  
Is the sting of the rain

It's the sting of the rain  
Oh, it's the sting of the rain  
Let the water of life  
Wash the dust from my soul  
All I gotta do is just roll

It's the sting of the rain  
Whoa, it's the sting of the rain  
Let the water of life  
Wash the dust from my soul  
All I gotta do is just roll

Take another glance in the mirror  
Where did I miss the sign?  
Did I lose my way in the darkness?  
Did my dreams leave me behind?  
And I can't turn back to find them  
I wouldn't know where to start  
Keep my hand on the throttle  
Ride the pain from my heart

It's the sting of the rain  
Oh, it's the sting of the rain  
Let the waters of life  
Wash the dust from my soul  
'Cause all I'm gonna do is just roll

It's the sting of the rain  
Whoa, it's the sting of the rain  
Let the waters of life  
Wash this dust from my soul  
All I'm gonna do is just roll
