

Down on the Streets

Axel Rudi Pell

Sometimes life is a jungle
Could be tough, could be strange
Different parts could crumble
But there is no escape
Juliet and Romeo
Born on the wrong side of town
Life's a bitch what they're saying
Going up and going down

Don't stop believing
In the inner strength of love

Your pride has fallen
And you're down on your knees
Need a magic spell
Living down on the streets

Your pride has fallen
And you're down on your knees
Need a magic spell
Living down on the streets

Down on the streets
Yeah

Hanging 'round at the corner
At 3rd Street and Main
Tough stuff's all around ya
No pain, no gain
Crying out for a better place
A place for you and I
Hearing shots in the distance
Much too young to die

Don't stop believing
In the inner strength of love

Your pride has fallen
And you're down on your knees
Need a magic spell
Living down on the streets

Your pride has fallen
And you're down on your knees
Need a magic spell
Living down on the streets

Down on the streets
Yeah

Your pride has fallen
And you're down on your knees
Need a magic spell
Living down on the streets

Your pride has fallen
And you're down on your knees

Need a magic spell
Living down on the streets

Down on the streets
Yeah
Living down on the streets
Down on the streets
