

# Fly with Me

Axel Rudi Pell

Let's get out of here  
Don't waste a falling tear  
Only you and I, on our way to heaven  
Feel the love in me  
Sometimes so hard to see  
But we're floating on cloud seven

Fly with me  
High above to the sky at the end of the rainbow  
Fly with me  
Calling out, crossing the line, can you hear the wind blow?

Long ago that we lived in fear  
Saw the light above in heaven  
Clouded mood on a rainy day  
Sailing on the ships of wonder

Going up, going down  
Calling better times together  
Climbing up, so scream and shout  
Stop the lies, you and me forever

Fly with me  
High above to the sky at the end of the rainbow  
Fly with me  
Calling out, crossing the line, can you hear the wind blow?

Fly with me  
High above to the sky at the end of the rainbow  
Fly with me  
Calling out, crossing the line, can you hear the wind blow?  
Fly with me  
High above to the sky at the end of the rainbow  
Fly with me  
Calling out, crossing the line, can you hear the wind blow?
