

On The Edge Of Our Time

Axel Rudi Pell

On the horizon at the end of our time
See the rainbow shimmer, looking for peace of mind
Flames in the sky and Heaven's up in smoke
So many die, too late to catch the rope

Why don't you come and rescue me?
Can you believe there's a safe place to be?

Through fire and ice, we sailed into the sky
Nothing lasts forever on the edge of our time
All's left and gone, we still don't know why
Nothing lasts forever on the edge of our time

The last days on Earth, no escape from the dark
Lost with broken memories
Time passes on, too late for our saving
Contrary day, anxiety, on this saddened day

Why don't you come and rescue me?
Can you believe there's a safe place to be?

Through fire and ice, we sailed into the sky
Nothing lasts forever on the edge of our time
All's left and gone, we still don't know why
Nothing lasts forever on the edge of our time

Through fire and ice, we sailed into the sky
Nothing lasts forever on the edge of our time
All's left and gone, we still don't know why
Nothing lasts forever on the edge of our time

Faraway, on our way, there is no tomorrow
Hear our prayer on our endless way
Drowning in sorrow alone, oh, hear our prayer

Oh, woah, woah

Through fire and ice, we sailed into the sky
Nothing lasts forever on the edge of our time
All's left and gone, we still don't know why
Nothing lasts forever on the edge of our time

All is left and gone, we still don't know
Still don't know, still don't know why
