

Sign of the Times

Axel Rudi Pell

On the edge of darkness
On the edge of time
We lost the place of no return
Since we all got wiser
Since we lost the fools
We're on our way to better times
Better times

Looking down on the ashes
But moving on to a new world

Never too late
Creating and moving
Finding out it's the sign of the times
Can't take a break
No twisting and turning
Calling out it's the sign of the times
The sign of the times

Passing by a rainbow
Not that far away
Reaching out for a better place to stay
Looking back in anger
Looking back in pain
Can't understand what we did to our home

Looking down on the ashes
But moving on to a new world

Never too late
Creating and moving
Finding out it's the sign of the times
Can't take a break
No twisting and turning
Calling out it's the sign of the times
The sign of the times

Never too late
Creating and moving
Finding out it's the sign of the times
Can't take a break
No twisting and turning
Calling out it's the sign of the times
The sign of the times

The sign of the times

It's the sign of the times
The sign of the times
