

# The End of the Line

Axel Rudi Pell

In a valley far away  
Lived the unforgotten son  
Teaching the people about the vintage education  
Sure they didn't had any clue  
As the full moon rises in the sky  
And the sun just turned to black  
A few disappeared and were never seen again  
Taken by force coming out of the dark

Holy power please let us carry on  
Getting stronger from dusk until dawn

Once you're gone  
Out of sight and far behind  
We know we're running out of time  
Live on forever  
But we don't bet any dime  
No doubt, we're the end of the line  
The end of the line

Losing ground on our journey  
Through the world of no return  
If you'll get in trouble there's no way for coming out  
Find the light and have a look into the sky  
Never give up, never remain  
The wise man will hear all your prayers  
A new generation will find a way to a new world  
A better place building a castle of dreams

Holy power please let us carry on  
Getting stronger from dusk until dawn

Once you're gone  
Out of sight and far behind  
We know we're running out of time  
Live on forever  
But we don't bet any dime  
No doubt, we're the end of the line  
The end of the line

Once you're gone  
Out of sight and far behind  
We know we're running out of time  
Live on forever  
But we don't bet any dime  
No doubt, we're the end of the line

Once you're gone  
Out of sight and far behind  
We know we're running out of time  
Live on forever  
But we don't bet any dime  
No doubt, we're the end of the line  
The end of the line  
The end of the line
