

# Dogs Of War

Axenstar

Searing for enemies all around the globe  
Won't take a second before their guns explode  
One mans fortune is another mans demise  
They can't be reached behind a wall of lies

We are weakened, destroyed and betrayed  
One more soul, one less race  
Just as the devil will take his toll  
Stand your ground before you lose control

They are not even in human form, not even close to a human mind  
Predators roaming the earth searching for new victims to find

The dogs of war  
Live or die it's all the same, soon as the world disintegrates  
The dogs of war  
Fear no one, feel no more shame even now we know your name

Paranoid illusions won't take the blame  
For every one that will be slayed  
Hunting and killing without remorse  
This could be the ultimate force

What would they be without their spite  
Nothing more than fools who die  
Soldiers of fortune will carry on  
To their graves if they don't back down

Riots and revolutions their most precious friend  
Standing by waiting for the world to come to an end  
These machines of war will rape and destroy  
The screams of innocent victims will never cease to exist

They are not even in human form, not even close to a human mind  
Predators roaming the earth searching for new victims to find

The dogs of war  
Live or die it's all the same, soon as the world disintegrates  
The dogs of war  
Fear no one, feel no more shame even now we know your name

The dogs of war  
Live or die it's all the same, soon as the world disintegrates  
The dogs of war  
Fear no one, feel no more shame even now we know your name
