

# All My Life

Axxis

I was born with a destiny  
Born with guilt - shame on me  
Can you judge me by my face  
And not the history of my race

All my life I've lived and I see  
All the eyes that watch over me  
All my life - and I understand  
That I'll always belong to this land

Why justify what I don't understand?  
Just accidently born in this land  
I can't escape the hand of the past  
This legacy will always last

All my life I felt the same way  
All the ears that hear what I say  
And I hope that they understand  
I'll always belong to this land

All my life I've lived and I see  
All the eyes that watch over me  
And I hope that they understand  
That I'll always belong to this land
