

# Heaven in Black

Axxis

Are you cold as ice, are you hot like fire  
Going to extremes - your desire  
Go to the left - go to the right  
In the middle you will find a reason not to fight

Different worlds, different things  
Different thoughts of different people  
God given blaze of colour everywhere

Heaven in black - heaven in white  
Loving the darkness and the light  
Different thoughts could make our life so colourful  
Heaven in black - heaven in white  
Living by day and loving the night  
Opposites attract in our life

Everybody is black, every flower is grey  
The same old prayers we all pray  
A boring world without good and bad  
Our life would really be so sad

Different worlds, different things  
Different thoughts of different people  
God given blaze of colour everywhere

Heaven in black - heaven in white  
Loving the darkness and the light  
Different thoughts could make our life so colourful  
Heaven in black - heaven in white  
Living by day and loving the night  
Opposites attract in our life  
Everybodies life

Heaven in black - heaven in white  
Loving the darkness and the light  
Different thoughts could make our life so colourful  
Heaven in black - heaven in white  
Loving the darkness and the light
