## 4. Take My Hand

Still feel your breath on my burning skin Forbidden passion hidden deep within Hear me saying: keep on praying save me Hiding from the world will make you cry

Eyes try to meet each others gaze
Why do you always make me fight?
I can never get enough of you
I know you hear my call
Fight against the burning passion inside

I will guide you through the stormy night Will hold you till the morning light I know a place where we can hide

Take my Hand and I'll lead you through the night Caught in the heat of love again
Why do we always have to fight?
And we never ever get enough
Take my Hand I will save you from the fall
Too proud to show you how I feel
I know you are waiting for my call
Call out my name into the night

I would rather kill myself right now Than let a hint of feeling show What's really going on

I know what you think see what you feel You know I won't draw back At night I know you're waiting for my call

Take my Hand and I'll lead you through the night Caught in the heat of love again Why do we always have to fight? And we never ever get enough Take my Hand I will save you from the fall Too proud to show you how I feel I know you are waiting for my call Call out my name into the night

When I fall for your touch In the night I can't hide When I call for your love And I feel you tonight When we lose all control We won't hide anymore

Take my Hand and I'll lead you through the night Caught in the heat of love again Why do we always have to fight?
And we never ever get enough

Take my Hand I will save you from the fall Too proud to show you how I feel

I know you are waiting for my call Call out my name into the night into the night And I feel you tonight
