Thought I broke an arm cause I put diamonds on my wrist  
This from ABS it ain't no slidin in my whip  
They like where you been at? I been grindin gettin rich  
And I may not be the hottest candle but I'm lit

They say a movin target hard to hit

My plug sent the load it's on the strength  
I just sent a car full of them youngins  
Don't come back with no attempt  
I got monkeys round me we just put bananas on the clip  
I got junkies round me they treat me like Santa on the rip  
Call my young boy trampoline cause he tryna catch a body  
Tired of going round my hood cause all I see is zombies  
I just left the plug I'm tryna find my way to Ghazi  
No disrespect it ain't easy dealing with Papi  
I can't put my trust in slim again because she shady  
I can't try to leave the streets alone because they made me  
Born in 93 but I get money like the 80s  
I'm not no blogger but this 40 make em Say Cheese  
Ice all on my neck so the police can't tell me freeze  
Keep it on me when I leave  
All black hoodie like Trayvon I got my heart up on my sleeve  
Keep it on me for the shit that I done seen  
So I gotta keep a

45 on my hip it match my fit  
Pull up in a foreign make em sick  
I just made a play and took a trip  
They say a movin target hard to hit

I burn the blunt cause I just burnt a bridge  
My brodie told me it is what it is  
I'm cooking out the pot I used to whip  
It's the pot that used to pay for all the drip

Assalam alaykum how you doin ahk?  
Need to bring the truth back  
Suckas ain't followin the script  
Can't live in this dominion  
Fly to Moe go Virginia  
Ahk we need to run into some millions  
There's certain shit that's hard to believe  
I'd rather five wolves round me than an army of sheep  
Cause I used to look out for people  
But now I look out for people  
Don't believe everything you hear  
Real eyes realize the real lies  
Look into my eyes you can see what I'm built like
