Can't Wait

Ay Em

Ooh
(It's 2FVDED on the track)

Tell her part way
Humble beginnings, had to take the hard way (Ooh)
Couple of weak links, had to part ways (Ooh)
We need some sun, all we had was hard rain (Mm)
Bae not today, I can't make time
Can't wait to eat, the seed takes time
Big weight for me, the cake came right
Plug told me, make sure the fragrance right
We right there in the middle with his sticky on the way
I can't reach, but bro says there's a blicky on the way
For the past week, I've just been getting busy on the main
When I can't sleep, I ask Allah forgive me when I pray, uh

Either right or you're wrong
You're turnt up, make my brother turn you off
Said I need to make change on my own, uh
Took a risk on these roads, dealing in the trap
Stealing a goody goody, bagging up my pack
She ain't my bae, she only with me 'cause I rap
She always tryna put me all over her Snap
I'm on my way, I done 120 on the dash
She tripping 'cause I ain't been with it
Switching, I'm going to big business
Listen, I won't take six figures
Add more, and make that six million

Tell her part way
Humble beginnings, had to take the hard way (Ooh)
Couple of weak links, had to part ways (Ooh)
We need some sun, all we had was hard rain (Mm)
Bae not today, I can't make time
Can't wait to eat, the seed takes time
Big weight for me, the cake came right

I can't reach, but bro says there's a blicky on the way
For the past week, I've just been getting busy on the main
When I can't sleep, I ask Allah forgive me when I pray, uh

Yeah, yeah, forgive me when I pray
I ain't going ghost, I'm just in the city in a Wraith
Generating milli's 'til I got a milli' on my chain
Made a killing with my killy, I'm a-killin' it again
Suicide doors on the Cullinan
I've been dancing with the devil so I do the running man
Any time I see the money, bring it on me, run it back
Cookin' up a storm, tell my nigga let me from the clamp
Go crazy
Couldn't give a fuck, I had to let them niggas know
Never sold my soul, I had to sell a little coke
Feds was tryna prey us and they drove a nigga oh so crazy
Now they cattin' for the quote
Lion in the concrete jungle, I've really been there
Monkey on my face, I'm rocking the Louis V pair

Mami said she never seen a bag from Celine
Prolly talkin' 'bout Dior when I say it's in my genes

Tell her part way
Humble beginnings, had to take the hard way (Ooh)
Couple of weak links, had to part ways (Ooh)
We need some sun, all we had was hard rain (Mm)
Bae not today, I can't make time
Can't wait to eat, the seed takes time
