Reverses

Ay Em

I'm on the climb, hoping the game don't tired of me
Man was just laying around cause the money was all that I need
Tired of sitting around tryna get me enough for the week
Hoping there were reverses
Hoping there were reverses
So I'm in it to win for certain
If I wear me a Rolly, I earned it
Making sure I that feed all my people
They're the reason I grind when I'm serving
Yh, I took me some L's but I'm learning
So I took off the L, now I'm earning
And I need a crib fully furnished
But I got me a uhh, full serviced
And I keep it around when if I'm working
Only keep it around when I'm nervous
Only 10/10 when I purchase
So it's hard to keep up with the service
Got a loud pack with me when I'm burning
Take your time in the head cause they hurt me
And I know 'bout this life, is it worth it?
Wish there was a button for reverses

Mummy just leave me alone
Mummy just leave, leave alone
And be what you want
But I'm not what you need
Counting the options is me that you trust
And I told her I want timing
She only here cause she wants diamonds
She won't be here if I reach minus
Told her no time cause I came here just grind
I'm a spoiler deeper to ground
Don't be showing it off and just smile
If I call you I need it on time
My lil baby, you know I don't work
And you know that I'm [?]
Tell me why you be acting surprised?
Mummy said these guys might beat the mind

I'm on the climb, hoping the game don't tired of me

No button for reverses
Little man strapped in the churches (Church on a Sunday)
Living life toxic
Little man strapped where the mosque is (Astaghfirullah)
Twist it and turn it, see that bridge
Man bill it and burn it
Mumma in court waiting for the verdict
Mumma have to watch her babe get birded
Little mans robbed bare banks not purses
Lick tellin' moose with a Furgi
I don't wanna see likkle man in [?]
And his mum crying out yeah [?]
Man just back the mash and burst it
Man try ride on me and I reversed it
One life man live for purpose
If I wear me a Roley, I jerked it

I'm on the climb, hoping the game don't tired of me
Man was just laying around cause the money was all that I need
Tired of sitting around tryna get me enough for the week
Hoping there were reverses
