

Twelve

Ay Em

I've been there before, I tell a true story
No I ain't beating 'round the bush
First sale, I got cold feet
In the saint 'round the villains and the crooks
Wish I had a hundred mil' in a briefcase
I seen a lot of shit in my teenage
And once you do the act, you can't repent
I'm looking all around, I can't see straight (See straight)

It's early on the block and I'm watching for surveillance (And I'm watching for surveillance)
I've opened up the door but I haven't found my way in (I haven't found my way)
Uh, I'm seated at the top 'cause I got a reservation
Said I gotta keep the team close by in case I run into a paigon
In case I run into a paigon
So I don't ever want to run into a hater
Why all the trappers gettin' more time than the rapists?
Someone tell me, man, I need an explanation
Empty hospital, I'm running out of patience, dilemma
I'm getting to the money, watch it all pile up
Halfway dead, dilemma
I'm getting to the money, watch it all pile up, now

Never shoot an enemy weaker (Weaker), swear it gets deeper
Show you how to plot in the procedure, by the dozen, gets cheaper
I'll be working 'til the week's done, didn't listen to the teacher
Told brother "Let nothing get in between us", yeah
Violations in the car, let it slide
Bro said I'm gearing up, I'm gunnin' on the glide
Dared ya, know you wonder why we get high?
When it comes to bullshit, that's when you get tied
No more in and outs, got a little share I need to figure out (Figure out)
Seen too much, can't stick around (Stick around)
Got a little share I need to think about, mm, woah

It's early on the block and I'm watching for surveillance (And I'm watching for surveillance)
I've opened up the door but I haven't found my way in (I haven't found my way)
Uh, I'm seated at the top 'cause I got a reservation
Said I gotta keep the team close by in case I run into a paigon
In case I run into a paigon
So I don't ever want to run into a hater
Why all the trappers gettin' more time than the rapists?
Someone tell me, man, I need an explanation
Empty hospital, I'm running out of patience, dilemma
I'm getting to the money, watch it all pile up
Halfway dead, dilemma
I'm getting to the money, watch it all pile up, now

The patience, the patience
Halfway dead
The patience, the patience
Halfway dead
The patience, the patience
Halfway dead

The patience, the patience
The patience, the patience
Halfway dead
The patience, the patience
The patience, the patience
