

Twists & Turns

Ay Em

Looking all around and I got many problems
I ain't got got no love that's why I never give
You don't wanna hear bout loyal cah you never been
Streets already broke my heart before you ever did

Shit is full of twists n turns
Burning power like Mr Burns
Bad luck I gotta lift the curse, uh uh
If wanted I can give the word
Any minute they can kiss the kerb, uh uh uh uh uh
Feeling like I'm next to go
Vvs diamonds I'ma eskimo
Pack smelling like Texaco
Feeling safer when I'm next to home
Even tho it ain't the best of homes

I don't get jealous I just lose interest
Move miles for you while
You move inches
Got paid I was tired of being used to broke
Gotye from somebody that I used to know
He got stained cuz of all the shit he used to show
Now he thinking am I ready for war
It's on sight now ready or not
Cuz if you don't bang out
You better sign out n head to the door

How many times
Did I run it up on other lines
Popping phone to phone the obbos real
Watching
Don't know if they watching me
Broadway day robberies
Everybody gotta eat
Everybody out for they own plate
I'm stuck in the ride
Can't tell if das askar behind
You can run but can't run from a lie

Looking all around and I got many problems
I ain't got got no love that's why I never give
You don't wanna hear bout loyal cah you never been
Streets already broke my heart before you ever did

Shit is full of twists n turns
Burning power like Mr Burns
Bad luck I gotta lift the curse, uh uh

Any minute they can kiss the kerb, uh uh uh uh uh
Feeling like I'm next to go
