

Uptown

Aya

If it seems I live for today
You and I don't see the same
Most people take what's around

We had fun
Whatever happened to all the things you wanted to be?
You used to be the one
Who made me keep on
You were the reason I could believe in myself

And I feel like floatin' away
I find myself in a daze
It's a dream life anyway

When we used to

Uptown
Boogie down
Hear the sound
Move it around
Now, don't sit down
Think about
Who you love
Now
Boogie down
Hear the sound
Move it around
Now, boogie down
Think about
Who you love

There's always someone to blame
Denied, your dreams fade away
Most people take what they've found

We had fun
Whatever happens, I'll still remember all that you said
I'll always head on
Never let go
All the dreams you wanted to live

For you said
Believe this life is a game
You'll find yourself in a maze
It's hide and seek everyday

You used to

Uptown
Boogie down
Hear the sound
Move it around
Now, don't sit down
Think about
Who you love
Now
Boogie down

Hear the sound
Move it around
Now, boogie down
Think about
Who you love
Uptown
Boogie down
Hear the sound
Move it around
Now, don't sit down
Think about
Who you love
Now
Boogie down
Hear the sound
Move it around
Now, boogie down
Think about
Who you love
