

# Camouflage Girl

Ayah Marar

You can tell me what you want but  
Gotta find me first  
And I've never been invisible  
But I know how it works  
I'd like to tell you the truth but  
We all know that hurts  
And even though you understand  
I've come to expect the worst

They say what you get is always what you see  
But what would you expect if you couldn't see me

Camouflage girl, I'm a camouflage girl  
There's nothing that I cannot be  
There's no one that you'll ever see me  
Camouflage girl

I'm not a shape-shifter  
But you can see me transform  
And when they say you just missed her  
I'll be hiding in the corner  
Don't want to give it all away 'cos  
Then it might not work  
I call it a blessing but you might call it a curse

They say what you get is always what you see  
But what would you expect if you couldn't see me

Camouflage girl, I'm a camouflage girl  
There's nothing that I cannot be  
There's no one that you'll ever see me  
Camouflage girl

Camouflage girl, I'm a camouflage girl  
There's nothing that I cannot be  
There's no one that you'll ever see me  
Camouflage girl
