

# Follow You

Ayah Marar

Follow You, Follow you  
F-f-follow you follow you

V1

Into the dark  
I wait while the questions bleed  
They tear me apart

So I get them before they get me  
I know I ask too much  
Don't wanna wait 'til you've answered me  
But we don't have to speak, no  
Coz watching you's all I need

PRE

I've got the will, so I'll find the way

CHORUS

I will Follow You  
And when there's nothing left to do  
I will Follow You  
Just so I'm always close to you  
I will ...  
Follow you follow you follow you follow you now x2

V2

How many words  
Must be spoken 'til the truth is out  
How many wounds  
Are re-opened when you move your mouth  
You made the rules  
The walls I want to break them down  
Coz I need you close  
Even when you don't know I'm around

PRE

CHORUS

MID 8 BREAKDOWN

Follow you ... now (etc)

CHORUS x2
