(Squad made the beat)  
(Go Griz!)

Mama use to tell me leave yo' ass alone  
Neva' listened had to learn it on my own  
I still loved you even though you did me wrong  
Turn the chapter- now it's time to move on

So why you trippin'?  
Gave you permission  
You had the key to my heart  
You blew out the engine  
I'm on YOUR feelings  
I know you feel it  
You can't find nothing in deez' [?] but some bitches

Use to fight for us  
Now I'm so over ya'  
You just ain't worth my love  
Clearly, I've given up  
You gonna' miss a good thing when I'm:  
Gone gone gone gone  
I brush that shit off I'm on  
I'm so deep in my zone  
Please stop calling my phone  
I'm so better alone  
Dis' that flexin' - oh yeah!  
Out here swingin' my hair  
Ion' care Ion' care  
Oh yeah! Oh yeah!  
Bounce it bounce it - oh yeah!  
You gon' hit it, stay away!  
This that shit that ain't fair  
Oh yeah! Oh yeah!  
Cause I'm better for real  
So you just gotta' deal  
Guess it is what is it is  
Oh yeah! Oh yeah!

I use to look at chu' - a king upon a throne  
I use to give you what you need and what you want  
Yeah I could never be a house if it ain't a home  
I would've rode around til' the bus fall off that chrome  
That's what I'm on  
You know you wrong  
You playin' games  
I'm getting money-MONEY long  
But it's your loss  
You pay the cost  
It's crazy when I look at you  
YOU turn me OFF

Use to fight for us  
Now I'm so over ya'  
You just ain't worth my love  
Clearly, I've given up  
You gonna' miss a good thing when I'm:

Bet you stressin' stressin'  
You gon' learn this lesson  
Out here missing blessings  
You made need a second  
I got many questions  
Don't even show affection  
I gave you affection  
Til' I caught you slippin'  
Now we got this tension  
Now we burning bridges  
I forgot to mention  
Look at every girl you meet and try to find me  
But you will NEVER find another girl just like me  
No n-no!

I brush that shit off I'm on  
I'm so deep in my zone  
Please stop calling my phone  
I'm so better alone
