

One Night

Ayanis

All I need is one night I'ma beat it right
See you got that see through on, I'm just tryna see you ride it
Hit me up when you alone
If you want I keep it private
I be proud to show you off
Show them other girls what time it is
Wetter than my diamonds
Tryna make you climax
You make me the proudest
Put it down you get the loudest
Roll it up and take you right up where the cloud is
Got no time for playing games or being childish

I've been needing some attention
Help me release all this tension
Just promise that if I let you pull up on me you ain't the type to get up al
l in your feelings
And I ain't with all that texting back and forth conversate
You better have that bomb the way you talking to me
I can get you up and down on your knees
My pleasure principle is when you finish you leave

We could start off with some foreplay in your truck
Don't be timid boy I swear I like it rough
Tonight I'm [?] don't just look when you can touch
Whisper something that's gon' make me open up

'Cause all you got is one night, one night
To waste my time
You know I keep it real tight, get yours
And give me mine
And let me be the one to tell you when enough, is enough, is enough, is enou
gh
Just got to promise me you won't fall in love, fall in love, fall in love, f
all in love

Get me high without the dro without the liquor
Like my bitches 'cause you see me gettin' thicker
Kiss my lips boy I ain't talking 'bout my face
Since you're looking like you really want a taste
I'm a ride it like a pony play a Ginuwine song
Better enjoy while it last 'cause you won't have me for long
The pleasure principle is get it up and put it down
If you got stamina then we could go a couple rounds

We could start off with some foreplay in your truck
Don't be timid boy I swear I like it rough
Tonight I'm [?] don't just look when you can touch
Whisper something that's gon' make me open up

'Cause all you got is one night, one night
To waste my time
You know I keep it real tight, get yours
And give me mine
And let me be the one to tell you when enough, is enough, is enough, is enou
gh
Just got to promise me you won't fall in love, fall in love, fall in love, f

all in love

'Cause all you got is one night, one time, one ride
And I'ma let you get yours, 'cause I'm just gettin' mine
