

Won't Be Taken Down

Aynsley Lister

All so often
She didn't get it right
Always someone digging in the knife
She learnt through time
It's their insecurities
She grew strong
Takes more than that to bleed

Everywhere she goes
Eyes burn into her skin
People judge, but they don't know a thing
Deep inside
She knows her worth
She carries on, undeterred

All, all of her life
She's had to deal with the jealous kind
She knows, she's better than that
They won't break her spirit
Oh, not this time

Try to knock her down
Try to trip her up
Her fire is burning
Deep down inside
She's gonna stand her ground
She's gonna live her life
She won't be taken down this time

All, all of her life
She's had to deal with the jealous kind
She knows, she's better than that
They won't break her spirit
Oh, not this time

They try to knock her down
They try to trip her up
Her fire is burning
Deep down inside
She's gonna stand her ground
She's gonna live her life
She won't be taken down this time
