

# Wrong Person

Ayo Jay

Again ooo, woah again ooo

Girl you've been through a lot of stressing  
Now you're looking for a blessing  
A little bit of caressing  
A little love and affection  
Don't wanna talk about her ex thing  
It was very depressing  
I told her girl don't stress it  
He was just the wrong person

She's tired of the complaining  
It's draining  
Shey you know what I'm saying  
You know one man's trash is another man's treasure my girl  
And girl you're amazing  
And I can imagine  
You want a man who makes things happen  
Who gives you things, no needs for asking  
So baby lemme make you happy yeah

Cos the moment you caught my eye  
See I knew there's things in the past that you hold inside  
I told her girl don't let nothing from the past just silence and hold you back nooo  
You can tell me what's on your mind

Always wanna argue with you for nothing  
Instead of doing something that's keeping you blushing  
You said you want calm, but there he goes stressing  
You said you like talking, but there he goes texting  
Even all the times when you need protecting  
He was long gone baby, no connection  
It's been so long girl I know you're regretting  
You don't gotta hold, you don't gotta saying  
Noooo

Cos the moment you caught my eye  
See I knew there's things in the past that you hold inside  
I told her girl don't let nothing from the past just silence and hold you back nooo  
You can tell me what's on your mind
