

Goin'

Ayo & Teo

And we just getting goin'
You keep thinking that we knowing this
Got racks got straps, not showing this
Got packs of gas we blowing this
Got cash on her ass I'm throwing it
And she splash I'm rowing it
No strings attached but I'm sewing it
We just living in the moment

Didn't know that I was gonna own her
Didn't know that I was gonna bone her
Until she hit me on my phone yeah
At about three in the mornin'
She was wide awake, I was just yawning
When you come back from tour
It feel like I keep respawning
I feel like we at war

And we just getting goin'
You keep thinking that we knowing this
Got racks got straps, not showing this
Got packs of gas we blowing this
Got cash on her ass I'm throwing it
And she splash I'm rowing it
No strings attached but I'm sewing it
We just living in the moment

Uh huh we got it going
She with us we know she going
All these diamonds keep me frozen
Touched this ice that's global warming
Melt my heart she always want me uh
Ride me like a pony
Taking a trip keep my mental focus
Blowing this pack keep my mental focus
Yea we got gats and our niggas toting
Hop on a jet and let's get back to touring
Eating so good on the snap that you want it
Looking so good on a yacht that I want three
And we just gotta keep going
Keep getting stacks rigging all type of fortunes
Niggas being greedy so we gotta stay on it
Knockin down bridges and all type of opponents
Yea ah

And we just getting goin'
You keep thinking that we knowing this
Got racks got straps, not showing this
Got packs of gas we blowing this
Got cash on her ass I'm throwing it
And she splash I'm rowing it
No strings attached but I'm sewing it
We just living in the moment
